Rules and Regulations

(A) Categories:

- A: Language Education** (English, Chinese)
- B: Personal, Social and Humanities Education** (Moral & Civic Education, Sex Education, Environmental Education, Geography, History, Economics, Social Studies, ...)
- C: Mathematics and Science Education** (Mathematics, Physics, Chemistry, Biology, Integrated Science, ...)
- D: Technology, Arts and Physical Education** (Computer Studies, Design & Technology, Art, Music, Home Economics, Physical Education, ...)
- E: Game Design**
- F: Computer-Assisted Learning (CAL) Design**
- G: Application Software Design**

(B) Group Levels:

- (i) Junior: S1 to S3 students
- (ii) Senior: S4 to S7 students

(C) Topic:

Contestants are required to do some in-depth work on any topic within one of the categories listed in (A) above. They have to make use of IT in doing the project and present it by using computer in the Heats (分組賽) and Final Contests (決賽).

(D) Teacher Supervisors / Advisors:

Each team should invite at least one and not more than two teacher(s) as their supervisors / advisor(s) whose role is to provide supervision, guidance and support to the team, and to write a brief Review on the Project.

(E) Regulations:

1. The Contest is open to all full-time secondary school students in Hong Kong.
2. To promote the spirit of collaboration, students have to enter the Contest as a team of **two to three** members. Change of members is not permitted after the registration form is submitted (unless an application letter for change from the Supervising Teacher is approved by the Organizing Committee).
3. Each student can only submit ONE entry in any one category, and a total of not more than 2 entries. In Category (A) to (G), each school can submit a maximum of 8 entries.
4. For each entry, a Report (hardcopy, not more than 10 pages) stating the objectives, learning process and reflections (with Activity Logs and teachers' review) has to be submitted in the Heats. Marks will be awarded.
5. In the adjudication processes in the Heats and Finals, contestants are required to bring their own computer. They have to present their project to the adjudicators for not more than 6 minutes.
6. During the Heats and Final Contests, the contestants have to submit a copy of their project which is saved on CD-ROMs.
7. The project submitted should be **complete** and **original**, and has not entered in any other open contest/exhibition. There should also be no infringement of copyright of any kind, including the programs, music, graphics, etc.
8. The copyright of the projects belongs to the Organizer, who can demonstrate, modify and duplicate the projects for educational uses.
9. The decision of the Organizer shall be final for any dispute over the Rules and Regulations and other arrangements. The Organizer reserves the right to amend the Rules & Regulations and other arrangements.

(F) Assessment:

- (a) Content & Skills: choice of topic, accuracy of information collected, quality of the project, creativity, use of IT, etc.
- (b) Process: planning and working processes, citation of references, and reviewer's comments on the project, etc.
- (c) Presentation: communication and collaboration skills, use of computer for project presentation, response to questions raised by adjudicators, etc.
- (d) Project Manual: Contents, presentations and reflections, etc.

(G) Prizes: (Organizing Committee may add or cancel the following prizes.)

1. Category Prizes
